5. Repair including: replace crystal, repair motor control problem, replace dome and etc
6. With 60 days warranty after fixed and 3-5 working days to repair.

### How to do complete clinical evaluation of your transducer?

#### 1. Frequency conversion

Whether the frequency can be transformed, it's the important indicator.

#### 2. Frequency range

The wider the range, the better.

#### 3. Scanning angle

The bigger the angle, the better. Especially for the intracavitary probes.
